## Hiscall Solution - Houses of Worship -

God is watching...and so are the cameras! In today's times, a video surveillance system is just as important for Houses of Worship as it is for a commercial properties. Precise audio and visuals are vital in today's worship services. Hiscall provides expert solutions for installation of audio, video, lighting and security systems.

Technology to deliver the message and enhance the religious experience includes:

- **Utilize CCTV Security Cameras for campus safety**
- **Cutting-edge audio visual technology**
- **Provide expandable Wi-Fi access**
- **Low Voltage wiring for voice and data**
- **Use Digital Signage to inform people regarding church activities**

Hiscall is a leader in audio visual and security products for Houses of Worship locations. We are your single point-of-contact for security system projects. It is a true partnership from site survey through completion, ensuring the project is on time, on budget and meets all specific requirements.
