

LOW VOLTAGE CABLING  
& INFRASTRUCTURE

CCTV/SECURITY CAMERAS

TELEPHONY

DATA NETWORKING

AUDIO/VISUAL

Healthcare providers and staff members who work in senior care facilities may face communication obstacles as a result of residents' physical and cognitive impairments, limited health literacy, vision and hearing deficiencies, cultural and generational beliefs, and other factors. Swift, clear and precise communication is required for operations and satisfied residents and their families.

Solutions Assisted & Senior Living Facilities are implementing now:

- **Cloud and Premise-Based Phone Systems**
- **Dialtone Solutions \*Ask me about Hiscall Voice Connect\***

Communication has long been recognized as a complex process that is prone to errors, oversights, and misunderstandings. In terms of patient safety and malpractice risk, the implications of inadequate or poor communication are substantial. Hiscall is a leader in communication products and design services for senior living facilities, especially ones with multiple locations.

## About Hiscall, Inc.

Hiscall is a leading provider of communication systems for organizations of every type and size. With the expertise to design, implement and maintain customized projects, Hiscall is capable of exceeding the requirements of any size project—small, medium, large or multi-location.

## Why Choose Hiscall, Inc.?

Hiscall is dedicated to bring a single-point-of-contact for the design, implementation and project management of low-voltage infrastructure and communication equipment for senior care facilities. We understand how critical communications systems are to an organization's viability. The company's commitment to customer service and its technical expertise allows Hiscall customers to enjoy a level of confidence that can only come from partnering with a one-stop resource.

## The Hiscall Difference...

- Staffed 24 / 7 / 365
- More than 14,000 parts in warehouse inventory
- Fully stocked tech vehicles equipped with GPS
- Demonstration lab at corporate headquarters
- Emergency response resources
- State-of-the-art facilities
- Knowledgeable and courteous response
